

ITSE 1359 – Program14

General Points

- Program14 can be completed using content from the following chapters:
 - [Python @ ACC](#) - Welcome! through File I/O & Modules
 - [Textbook](#) - Chapters 6 through 16
- Create a file named program14.py.

Suppose, a global software development company named *Dynamic Solutions, Inc.* received your resume and may be interested in offering you a Python development position on their team. To assess your qualifications and to compare your skills with those of the other applicants, the company has asked you to provide a sample of your work. That is Program14. Use this opportunity to demonstrate the knowledge and skills you have acquired.

Requirements (these are the requirements to identify by number):

1. Output a header in the console: “This is Program14 - <yournamehere>”
2. Include appropriate output and communication with your user.
3. Print a statement explaining the grade you would award yourself for Program14 and why.
4. [Print a statement explaining your experiences with Program14. Make this authentic \(minimum of 2-3 sentences\).](#)

TEST – **TEST** – **TEST** your application to ensure the requirements are met.

- Use the list above and the common requirements as a checklist.
- Not meeting all requirements = 0 points for the assignment.
