

ITSE 1359 – Program09

General Points

- Use the course material located at:
 - [Python @ ACC](#) - Welcome! through File I/O & Modules
- Create a file named program09.py.

Requirements (these are the requirements to identify by number):

Start with the program you produced for Program08. In addition to all of the requirements for Program08, do the following:

1. Output a header in the console: “This is Program09 - <yournamehere>”
2. Print “This program keeps track of Pokémon characters, saves the data to a file, and displays the data from a file.”
3. Write and call the function ‘save_data()’ that saves Pokémon data to a file.
4. Call the function ‘display_data()’ that reads the data from a file and displays the output just like requirement #5 in Program08.
5. **Print a statement explaining your experiences with Program09. Make this authentic (minimum of 2-3 sentences).**

TEST – TEST – TEST your application to ensure the requirements are met.

- Use the list above and the common requirements as a checklist.
- Not meeting all requirements = 0 points for the assignment.
